DbManager::saveDb

```
graph LR; A["MainTrafficSimulator::on_btnFDiagram_clicked"] --> C["DbManager::saveDb"]; B["MainTrafficSimulator::on_btnFDiagramConfig_clicked"] --> C;
```

The diagram illustrates two function calls. Two white rectangular boxes on the left represent the source methods: 'MainTrafficSimulator::on_btnFDiagram_clicked' (top) and 'MainTrafficSimulator::on_btnFDiagramConfig_clicked' (bottom). Two blue arrows point from these boxes to a single gray rectangular box on the right, which represents the target method 'DbManager::saveDb'.
